Course Roadmap + Resource Checklist

Course: Setting Up Your Professional Portfolio - Create Your Portfolio Website Using GitHub Pages & Lovable.ai

By the end of this self-paced course, you will have a live, public-facing professional portfolio website that showcases your data visualization projects, resume, and social profiles — hosted on GitHub Pages and enhanced with Lovable.ai design tools.

Course Roadmap:

1 Welcome & Overview – Learn the value of a digital portfolio and preview sample portfolio sites.

2 Setting Up Your GitHub Account – Create and configure your GitHub profile.

3 Creating a New Repository – Build your portfolio repo (username.github.io) and add base files.

4 Uploading Portfolio Files – Add your CV, project visuals, and social links.

5 Creating Website on Lovable.ai – Design your homepage and import GitHub content.

6 Publishing & Sharing Your Portfolio – Deploy and share your portfolio publicly.

Resource Checklist:

• Portfolio Planning Worksheet

• GitHub Setup Guide

• Portfolio Folder Structure Template

• HTML + Folder Template

• Lovable.ai Design Checklist

• Portfolio Launch Checklist

• Bonus SEO Tips

Tips for Success:

• Keep your design clean and consistent.

• Update your portfolio regularly with new projects.

- Add your link to LinkedIn, email signature, and CV.

- Explore others' portfolios for inspiration.

Next Steps:

 Complete Module 1 video.

 Download and fill in this roadmap.

 Bookmark your GitHub and Lovable.ai accounts.

 Get ready to start building in Module 2.
